

D6

is the epitome of comfort within its class of boats.

With a length of

6.3m

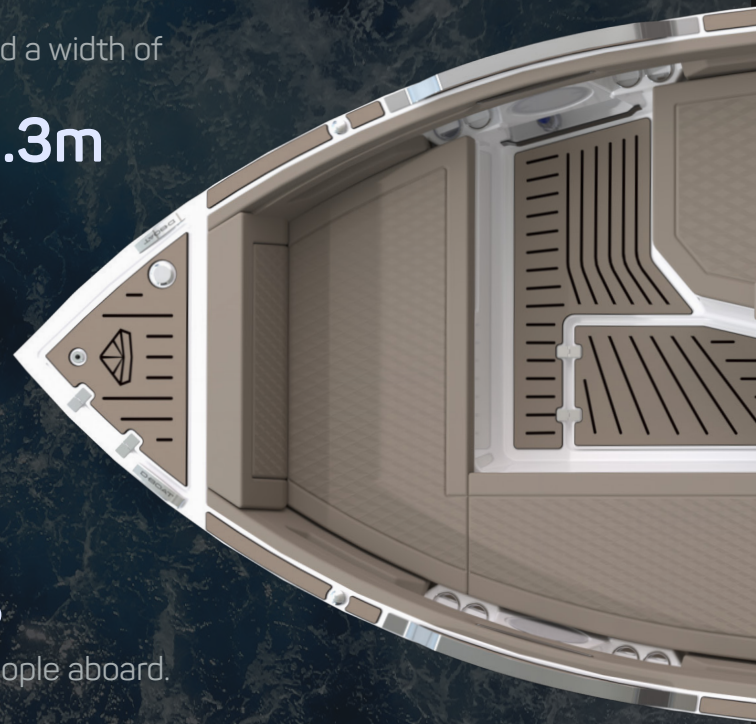

and a width of

2.3m

you have the freedom
to take it anywhere you desire
and invite your friends
and family along – up to

8

people aboard.

The boat is equipped with an array of features designed for both convenience and aesthetics, including **12 illuminated storage** compartments, **LED lighting** in the cockpit, a dedicated compartment for a passive refrigerator, **14 cup holders**, and a deck covered in either **SeaDek** or **Esthec** flooring.

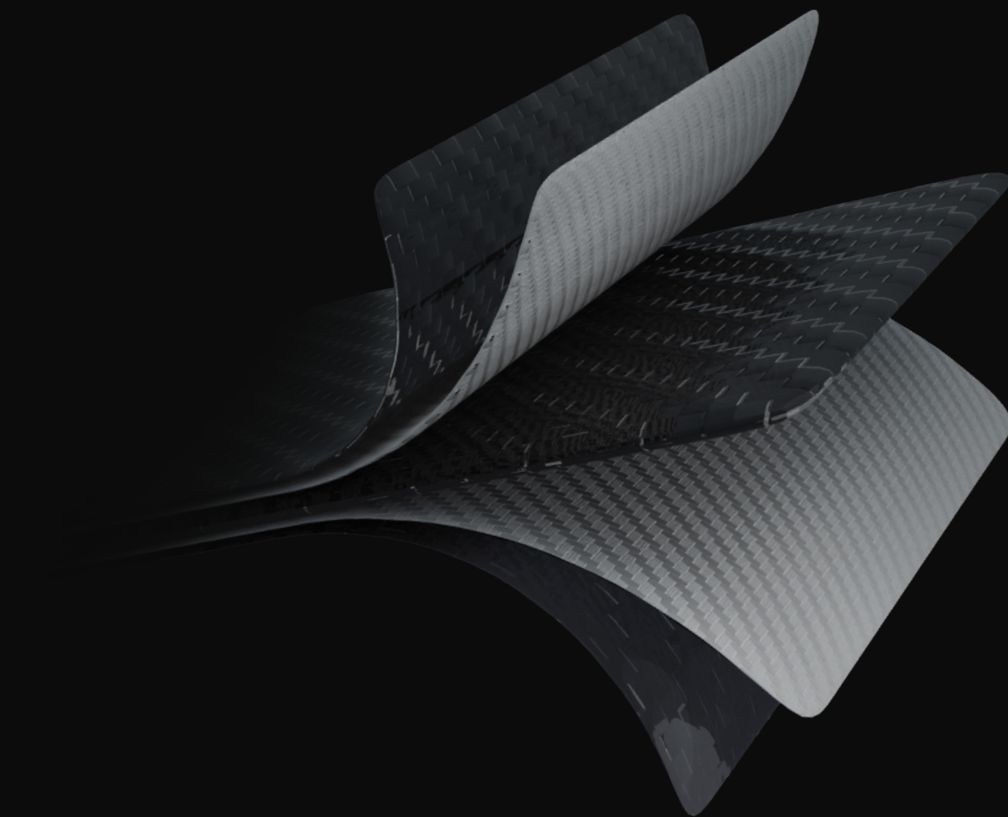

This vessel stands out in the market not only for its timeless design
but also for its exceptional functionality, making it the top choice
for those seeking the perfect blend of style and practicality.

D-BOAT

BasaltCore

BasaltCore represents a revolutionary layering system in boat laminates, integrating layers of basalt fabric inside.

This groundbreaking application has led to a remarkable **300% increase in strength** compared to the conventional polyester-glass laminate as well as **30% reduction in the boat's overall weight**.

In conjunction with this advancement, the implementation of vacuum infusion technology has elevated **D-BOAT** vessels to the pinnacle of quality, boasting unmatched utility and performance parameters in the maritime industry.

The Best Audio System in Class

D6 boasts the finest audio system
in its class, setting a new standard
of audio excellence.

With up to **9 speakers** and an impressive **1800W** of power covering a **10m²** area,
you have the flexibility to choose the audio system that best suits your preferences and needs.

In the standard version, you'll experience top-tier audio quality driven by **Hertz** components, providing an exceptional auditory experience that outshines competitors in its class.

For those seeking a premium audio experience, the D6 offers a top-of-the-line audio system by **JL Audio**, a brand renowned for gracing only the finest yachts worldwide.

For audiophiles who demand nothing but the best, D-BOAT, pioneering the market for boats up to 13 meters, presents the **Hi-Fi Bowers & Wilkins** audio system. Elevating the audio experience to unparalleled heights, this system ensures uncompromised sound quality, making D-BOAT a trailblazer in audio innovation within its class.

ENGINES D6

D6 offers the flexibility to be configured with an engine of your choice, allowing you to tailor its performance to your preferences. The recommended power range for the engine is between

100 to 200 hp

ensuring a dynamic range of options to suit your needs perfectly.

WHICHEVER ENGINE OPTION YOU CHOOSE,

D6 ENSURES A THRILLING AND EFFICIENT BOATING EXPERIENCE,

ALLOWING YOU TO EMBRACE THE POWER THAT ALIGNS

WITH YOUR BOATING STYLE AND PREFERENCES.
